

VARIO' PLINTH

- ❑ Range specially designed to develop motor skills of children
- ❑ Fits perfectly into an educational circuit
- ❑ The two wedges can be disposed as you want to approach gymnastics bases (rolls, handstands...)
- ❑ Ideal for obstacle courses, adventure trails or agility circuits
- ❑ High modularity thanks to hook-and-loop strips
- ❑ Can be used by its own or combined with various elements of the Educ'Gym range (like Dyna'beam **Ref. 0312**) and the Vario range thanks to its similar dimensions
