

# O'JUMP

A GYMNOVA BRAND

GYMNASTICS  
**URBAN**

Urban gymnastics has rapidly become a universally recognised popular sport. A sports discipline in its own right, it involves overcoming a succession of urban or natural obstacles by means of fast and agile movements.

To meet this new demand, **O'JUMP** has developed a new range of foam modules designed specifically for this discipline and for the needs of clubs so that urban gymnasts can express their creativity in complete safety.

Each module has been carefully developed in collaboration with a number of urban gymnastics clubs enabling us to create a range suited to and compliant with the fundamental principles of the discipline.

All the modules in the range represent the various crossing types found in the urban or natural environment. The modular nature of the range enables you construct a variety of obstacles and circuits for each session. The modules are distinct and can be used separately.

The dimensions and types of foam used have been specifically designed to suit both children and adults. The modules have carrying handles and an anti-slip base. Cover in phthalate-free 1000 denier PVC with class M2 fire rating.

Secure joining of components by means of self-gripping strips

Carrying straps or handles

**HEALTH**   **WELL-BEING**  
**CREATIVITY**   **TEAMWORK**

# COMPLETE KIT

## Ref. 940 Complete kit

Includes all the modules needed for practising urban gymnastics.

The kit comprises the following references:

**Ref. 900**  
TRICKING HOOP

**Ref. 910**  
WEDGES

**Ref. 920**  
TRAPEZIUM

**Ref. 930**  
BLOCKS

**Ref. 925**  
TRICKING STEP

# TRAPEZIUM & TRICKING STEP

Ref. 920 & 925

## Available modules:

**Ref. 920** Trapezium - 150 x 130/40 x 150 cm

- A** 150 x 70/40 x 50 cm (Ref. 921)
- B** 150 x 100/70 x 50 cm (Ref. 922)
- C** 150 x 130/100 x 50 cm (Ref. 923)

**Ref. 925** Tricking Step - 150 x 40 x 30 cm

Ref. 920

Ref. 925

*Additional module that can be used to construct an obstacle 1.80 m in height by combining it with the Trapezium module.*

The Trapezium (Ref. 920) is made up of 3 modules allowing a variety of heights: 50, 100, 150 cm. These components are securely joined together by means of self-gripping strips but can also be used separately to create different kinds of obstacles.

The Trapezium module (Ref. 920) and the Tricking Step module (Ref. 925) can be combined to create an obstacle measuring 1.80 m in height.

They are especially suitable for cat leaps and arm jumps. The bevelled edges also make it easier to learn movements where the push-off is directly on the obstacle (360, wall flip, tic-tac, etc.).

# WEDGES

These 2 wedges form an essential part of any obstacle course. They have been created to simulate slopes generally encountered in the urban environment with different inclines. They are ideal for teaching both downward and upward movements such as jumping from height and certain acrobatic movements.

They can be used flat on the ground or vertically to simulate crossing over a wall.

Moves such as kicks and flips are easy to perform on these modules.

## Available modules:

**Ref. 910** Set of 2 wedges - (Ref. 911 + Ref. 912)

**Ref. 911** Medium wedge - 200 x 100 x 60/15 cm (LxWxH)

**Ref. 912** Large wedge - 200 x 100 x 90/15 cm (LxWxH)

# BLOCKS

Ref. 933

Ref. 931

Ref. 932

A number of scenarios can be made using these 3 modules construct your urban environment use the modules to make walls, bridges and other obstacles.

The modules have carrying handles and self-gripping strips so that you can easily combine them to create obstacles to be crossed.

Used together, they can also form steps or low walls.

Very easy to store and transport.

## Available modules:

### Ref. 930 Set of 3 Blocks

(Ref. 931 + Ref. 932 + Ref. 933)

Overall dimensions of the 3 modules joined together: 120 x 60 x 130 cm

### Ref. 931 Small Block

120 x 60 x 30 cm (A)

### Ref. 932 Medium Block

120 x 60 x 40 cm (B)

### Ref. 933 Large Block

120 x 60 x 60 cm (C)

Possible heights if you assemble the 3 modules:

70, 90, 100 or 130 cm.

# TRICKING HOOP

Ref. 900

**Take your training to a whole new level!**

## **Ref. 900** Tricking hoop

The tricking hoop module adds a fun aspect to performing and the challenge of trying out new tricks. The circular shape is a key element for preparation exercises in the urban gymnastics environment encouraging users to anticipate manoeuvres in narrow spaces and improve precision of movement. Can be used on the ground or directly on a module. Dimensions: 160 x 50 cm (ØxTh) - inside Ø: 1 m.
